

# Learn LabVIEW<sup>TM</sup> 2013/2014 Fast

A Primer for  
Automatic Data  
Acquisition

Douglas Stamps, Ph.D.

# Contents

|         |    |
|---------|----|
| Preface | vi |
|---------|----|

|  |   |
|--|---|
| <b>Part 1      Introduction to LabVIEW</b> | 1 |
|--|---|

|   |    |
|---|----|
| <b>Chapter 1    LabVIEW for Data Acquisition</b>                  | 2  |
| 1.1     What is Automatic Data Acquisition?                       | 2  |
| 1.2     What is LabVIEW?  | 5  |
| 1.3     The LabVIEW Environment                                   | 5  |
| 1.3.1    Starting LabVIEW   | 6  |
| 1.3.2    Front Panel and Block Diagram                            | 6  |
| 1.3.3    Pulldown Menus and Keyboard Shortcuts                    | 7  |
| 1.3.4    Toolbars   | 8  |
| 1.3.5    Palettes   | 10 |
| 1.4     An Experiential Introduction to LabVIEW                   | 14 |
| 1.4.1    Case Structures  | 16 |
| 1.4.2    Data Acquisition: The DAQ Assistant                      | 19 |
| 1.4.3    Writing to a Measurement File                            | 24 |
| 1.4.4    Timing VIs for Control of VI Execution                   | 28 |
| 1.4.5    While Loop   | 29 |
| 1.4.6    Waveform Chart   | 33 |
| 1.4.7    Waveform Graph   | 36 |
| 1.4.8    Data Types   | 38 |
| 1.4.9    Converting Dynamic Data                                  | 42 |
| 1.4.10    Controlling While Loop Execution                        | 46 |
| 1.4.11    Good Housekeeping Tips: Cleaning up the Block Diagram   | 48 |
| 1.4.12    Starting the Finite Measurements Case of the Example VI | 48 |
| 1.4.13    For Loop  | 52 |
| 1.4.14    Local Variables   | 55 |
| 1.4.15    Documenting VIs   | 59 |
| 1.4.16    Good Housekeeping Tips: Organizing the Front Panel      | 61 |
| 1.4.17    Running and Debugging a VI                              | 63 |
| 1.5     LabVIEW Example VIs                                       | 68 |

|   |    |
|---|----|
| <b>Part 2      Data Acquisition: LabVIEW Configuration Approach</b> | 71 |
|---|----|

|  |    |
|--|----|
| <b>Chapter 2    Analog Signal Measurement and Generation</b> | 73 |
| 2.1     Analog Signal Basics                                 | 73 |

|                  |   |     |
|------------------|---|-----|
| 2.1.1            | Signal Measurement System   | 73  |
| 2.1.2            | Signal Resolution   | 75  |
| 2.1.3            | Signal Sampling Rate  | 76  |
| 2.2              | Finite Analog Input using Buffers, Hardware Timing, and Triggering  | 80  |
| 2.2.1            | Hardware Timing   | 80  |
| 2.2.2            | Buffers   | 81  |
| 2.2.3            | Triggers  | 81  |
| 2.2.4            | Skill-Development Problem: Finite Analog Input Example VI using Hardware Timing, Buffering, and Triggering              | 82  |
| 2.3              | Continuous Analog Input using Hardware Timing, Circular Buffers, and Triggers   | 93  |
| 2.3.1.           | Circular Buffer   | 94  |
| 2.3.2.           | Skill-Development Problem: Continuous Analog Input Example VI using Hardware Timing, Circular Buffering, and Triggering | 95  |
| 2.4              | Continuous Analog Output using Software Timing  | 107 |
| 2.4.1            | Introduction to Analog Output   | 107 |
| 2.4.2            | Skill-Development Problem: Non-Buffered, Software-Timed, Continuous Analog Output Example VI                            | 107 |
| 2.5              | Finite Analog Output using Buffers and Hardware Timing  | 122 |
| 2.6              | Continuous Analog Output using Circular Buffers and Hardware Timing   | 138 |
| 2.7              | Learn by Doing  | 154 |
| 2.7.1            | Proficiency-Development Problem: General Purpose Analog Input   | 155 |
| 2.7.2            | Proficiency-Development Problem: Thermocouple Input   | 162 |
| 2.7.3            | Proficiency-Development Problem: Strain Gage Input  | 171 |
| 2.7.4            | Proficiency-Development Problem: Signal Conditioning Using Filters  | 186 |
| 2.7.5            | Proficiency-Development Problem: Analog PID Compensator   | 199 |
| <b>Chapter 3</b> | <b>Digital Signal Measurement and Generation</b>  | 212 |
| 3.1              | Digital Signal Basics   | 212 |
| 3.2              | Continuous Digital I/O with Software Timing   | 213 |
| 3.3              | Learn by Doing  | 228 |
| 3.3.1            | Proficiency-Development Problem: Digital Input/Digital Output Control   | 228 |
| 3.3.2            | Proficiency-Development Problem: Analog Input/Digital Output Control with Minimum and Maximum Set Points                | 236 |

## Table of Contents

|                  |  |            |
|------------------|--|------------|
| 3.3.3            | Proficiency-Development Problem: Stepper Motor Control                                 | 245        |
| 3.3.4            | Proficiency-Development Problem: Keypad Scanning                                       | 255        |
| <b>Chapter 4</b> | <b>Counters</b>  | <b>265</b> |
| 4.1              | Counter Basics   | 265        |
| 4.2              | Counter Input  | 267        |
| 4.2.1            | Introduction to Counter Input Applications   | 267        |
| 4.2.2            | Skill-Development Problem: Continuous Measurement<br>of a Digital Pulse Train's Period | 271        |
| 4.3              | Counter Output   | 280        |
| 4.3.1            | Introduction to Counter Output Applications  | 280        |
| 4.3.2            | Skill-Development Problem: Pulse Train Generation<br>and Pulse Width Modulation        | 281        |
| 4.4              | Learn by Doing   | 292        |
| 4.4.1            | Proficiency-Development Problem: Inductive Proximity<br>Sensor/Metal Detector          | 292        |
| 4.4.2            | Proficiency-Development Problem: Simple Engine<br>Dynamometer Simulation               | 296        |
| <b>Index</b>     |  | <b>304</b> |
