CONTENTS

Getting Started 1

Introduction....1
Objectives....1
Getting Started with Autodesk Inventor....2
User Interface....3
- Application Menu....3
- Quick Access Toolbar....3
- Tabs....3
- Panels....3
- Commands....3
- Information Toolbar....3
- ViewCube....3
- Navigation Bar....4
- Documents Menu....4
- Capacity Meter....4
- Status Bar....4
- Document Tabs....4
- Browser....4
- Graphics Window/Canvas....4

File Tab....5
- Recent Documents....5
- Open Documents....5
- Display....5
- Order to List Files....5
- Pin to Menu....5
- Preview Image....5

Ribbon....6
Quick Access Toolbar....7
Open Files....7
- Opening Multiple Documents....8
- Document Tabs....8

New Files....9
File Information....10
- File Types....10
- Part (.ipt)....10
- Assembly (.iam)....10
- Presentation (.ipn)....10
- Sheet Metal (.ipt)....11
- Drawing (.dwg and .idw)....11
- Project (.ipj)....11
- iFeature (.ide)....11

Save File Options....11
- Save....11
- Save All....12
- Save As....12
- Save Copy As....12
- Save Copy As Template....12
- Pack and Go....12
- Save Reminder....12

Application Options....12
- General....13
- Save....13
- File....13
- Colors....13
- Display....13
- Hardware....14
- Prompts....14
- Drawing....14
- Notebook....14
- Sketch....14
- Part....14
- iFeature....14
- Assembly....14
- Content Center....14

Exercise 1-1: User Interface....14
Command Entry....17
- Tooltips....17
- Marking Menus and Context Menus....18
- Autodesk Inventor Shortcut Keys....18
- Repeat Last Command....18
- Undo and Redo....19

Help System....19
Projects in Autodesk Inventor....19
- Project Setup....20
- Project File Search Options....20
- Creating Projects....20
- What Type of Project Are You Creating?....22
- New Single-User Project....22
- New Vault Project....22
- Creating a New Single-User Project....22

Autodesk Vault....24
Exercise 1-2: Projects....24
Changing your Viewpoint....27
Home (Isometric) View....27
Navigation Bar....27
ViewCube....29
Dynamically Rotate Viewpoint Shortcuts....30
Exercise 1-3: Viewing a Model....30

Sketching, Constraining & Dimensioning 35

Introduction....35
Objectives....35
Part and Sketch Application Options....36
Part Options....36
Sketch Options....37
Units....38
Templates....39
Creating a Part File....40
Creating a Part File from a Specified Template....41
Sketches and Origin (Default) Planes....41
Origin 3D Indicator....42
New Sketch....42
Sketching the 2D Outline of the Part....44
Sketching Overview....44
Sketch Commands....44
Using the Sketch Commands....44
Dimension Input....45
Line Command....45
Object Tracking – Inferred Points....46
Automatic Constraints....47
Scrubbing....47
Deleting Objects....47
Common Sketch Commands....48
Selecting Objects....49
Exercise 2-1: Creating a Sketch with Lines....50
Exercise 2-2: Creating a Sketch with Tangencies....52
Constraining A Sketch....53
Constrain to the Origin Point....53
Constraint Types....54
Adding Constraints....55
Showing Constraints....55
Modifying Constraint Size....55
Deleting Constraints....56
Hiding Constraints....56
Construction Geometry....57
Number of Required Constraints or Dimensions....58
Degrees of Freedom....58
Dragging a Sketch....58
Exercise 2-3: Adding and Displaying Constraints....59
Adding Dimensions Manually....63
Scale Sketch....63
General Dimensioning....63
Dimensioning Lines....64
Dimensioning Angles....64
Dimensioning Arcs and Circles....64
Dimensioning to a Tangent of an Arc or Circle....64
Entering and Editing a Dimension Value....65
Fractions....66
Repositioning a Dimension....66
Fully Constrained Sketch....66
Over Constrained Sketch....67
Relax Mode....67
Driven Dimension....68
Exercise 2-4: Constraining and Dimensioning a Sketch....69
Measure Command....72
Region Properties....75
Inserting an AutoCAD File....76
Inserting 2D AutoCAD Data into a Sketch....76
Insert AutoCAD File with Associativity....78
Open Other File Types....78
Exercise 2-5: Inserting AutoCAD Data....79
Applying Your Skills....83
Skills Exercise 2-1....83
Skills Exercise 2-2....83

Creating & Editing Sketched Features 85

Introduction....85
Objectives....85
Features....86
Consumed and Unconsumed Sketches....86
Understanding the Browser....87
Switching Environments....88
3D Modeling Commands....88

Direct Manipulation....88
Mini-Toolbars....89
Property(ies) Panels....90
Extrude a Sketch....90
Extents....92
Advanced Properties....93
Exercise 3-1: Extruding a Sketch....94
Linear Diameter Dimensions....96
Centerline....96
Normal Line....96
Revolve a Sketch....97
Input Geometry....98
Exercise 3-2: Revolving a Sketch....100
Primitive Shapes/Features....102
Secondary 2D Sketched Features....104
Create a new 2D Sketch....104
Select Other-Face Cycling....105
Slice Graphics....105
Exercise 3-3: Sketch Features....106
Editing a Feature and Sketch....108
Edit Feature Command....108
Editing a Feature's Sketch....109
Renaming Features and Sketches....109
Deleting a Feature....110
Failed Features....110
Exercise 3-4: Editing Features and Sketches....110
Projecting Geometry....112
Projecting Edges....112
Exercise 3-5: Projecting Geometry....114
Part Material, Properties and Appearance....116
Part Material....116
Appearance....117
Additional Appearance Commands....117
Skills Exercise 3-1....120
Skills Exercise 3-2....121
Skills Exercise 3-3....122

Creating Placed Features 125

Introduction....125
Objectives....125
Fillets....126
Edge Fillet....127
Face Fillet....129
Full Round Fillet....130
Chamfers....131
Methods....132
Edge Chain....133
Setback....133
Preserve All Features....134
Create Partial Chamfer....134
Exercise 4-1: Creating Fillets and Chamfers....135
Holes....138
Creating Hole Features....138
Holes Dialog Box....139
Advanced Settings....141
Editing Hole Features....141
Exercise 4-2: Creating Holes....142
Shelling....146
Direction....147
Remove Faces....147
Automatic Face Chain....147
Solids....147
Thickness....147
Unique Face Thickness....148
Exercise 4-3: Shelling a Part....148
Work Features....150
Creating a Work Axis....150
Exercise 4-4: Creating Work Axes....151
Creating Work Points....153
Creating Work Planes....155
UCS—User Coordinate System....157
Feature Visibility....159
Editing the UCS....159
Exercise 4-5: Creating Work Planes & a UCS....160
Exercise 4-6: Creating Holes Through Cylinders....164
Patterns....167
Rectangular Patterns....167
Exercise 4-7: Creating a Rectangular Pattern....170
Circular Patterns....171
Exercise 4-8: Creating Circular Pattern....174
Linear Patterns—Pattern along a Path....176
Exercise 4-9: Creating a Pattern Along a Nonlinear Path....176
3D Printing – Additive Manufacturing....178

Applying Your Skills....180
Skills Exercise 4-1....180
Skills Exercise 4-2....181

Creating & Editing Drawing Views 183

Introduction....183
Objectives....183
Drawing Options....184
Creating a Drawing....185
Drawing Sheet Preparation....186
Border....187
Title Block....188
Edit Property Fields Dialog Box....189
Save Drawing to a Template....189
Creating Drawing Views....190
Creating a Base View....190
Creating Projected Views....192
Moving Drawing Views....193
Drawing Zone Identifiers....193
Exercise 5-1: Creating a Multiview Drawing....194
Creating Auxiliary Views....197
Creating Section Views....198
Creating a Detail View....202
Exercise 5-2: Creating Auxiliary, Section, and Detail Views....204
Creating Break Views....206
Exercise 5-3: Creating Break View....208
Editing Drawing Views....209
Editing Drawing View Properties....209
Deleting Drawing Views....210
Break and Align Views....210
Replace Model Reference....211
Exercise 5-4: Editing Drawing Views....212
Annotations....214
Drawing Standards and Styles....214
Centerlines and Center Marks....217
Automated Centerlines for Drawing Views....219
Exercise 5-5: Adding Centerlines....220
Adding Dimensions to a Drawing View....223
Retrieving Model Dimensions....223
Selecting Dimensions – Additional Options....225
Auto Arrange Dimensions....226
Moving and Centering Dimension Text....226
Editing a Model Dimension's Value in a Drawing....226
Creating General Dimensions....227
Exercise 5-6: Adding Dimensions....229
Creating Baseline Dimensions....233
Creating Chain Dimensions....236
Exercise 5-7: Creating Baseline & Chain Dimensions....238
Creating Ordinate Dimensions....240
Adding Text and Additional Symbols....242
Text and Leader Text....242
Annotation Symbols....243
Hole and Thread Notes....244
Exercise 5-8: Adding Annotations....246
Creating a Hole Table....249
Exercise 5-9: Creating Hole Tables....251
Shortcut for Opening Referenced Files....254
Opening a Model File from a Drawing....254
Opening a Drawing from a Model File....255
Create a 3D PDF....255
3D Annotations / Model-Based Definition (MBD)....257
Creating a 3D Annotation....257
Tolerance Advisor....258
Controlling Visibility of Annotations....258
Retrieving 3D Annotations in a Drawing....259
Applying Your Skills....260
Skills Exercise 5-1....260
Skills Exercise 5-2....261

6 Creating & Documenting Assemblies 263

Introduction....263
Objectives....263
Assembly Options....264
Creating Assemblies....264
Placing Components....266
Placing Components from Another CAD System....268
Creating a Component in an Assembly....270
The Assembly Browser....271

Occurrences 271
The Assembly Capacity Meter....272
Editing a Component in Place 272
Opening a Component in an Assembly....273
Grounded Component....274
Degrees of Freedom (DOF) 274
Adding Assembly Constraints....275
Assembly Constraint Command 275
Constraint Limits 277
Assembly Constraint Examples 277
Motion Constraints 280
Transitional Constraint....281
Constraint Set Constraint 282
Selecting Geometry and the Select Other Command....282
Applying an Assembly Constraint 283
ALT + Drag Constraining Technique....283
Moving and Rotating Components 283
Free Move 283
Free Rotate....284
Editing Assembly Constraints....285
Exercise 6-1: Assembling Parts 286
Assembly Joints....291
Creating an Assembly Joint....292
Tips for using the joint command 294
Exercise 6-2: Assembly Joints 294
Additional Assembly Commands....296
Browser Views....296
Other Half....297
Constraint Tooltip 298
User-Defined Assembly Folders 298
Isolating Assembly Components 298
Visibility Control....299
Adaptivity....299
Project Geometry in Assembly 300
Creating an Adaptive Sketch/Part Manually..300
Exercise 6-3: Designing a Part in an Assembly ..301
Patterning Components....304
Associative Pattern 304
Rectangular Pattern 305
Circular Pattern 306
Exercise 6-4: Patterning Components 307
Analysis Commands....309
Measure Distance 309
ID the Center of Gravity of an Assembly 309
Interference Checking 310
Exercise 6-5: Analyzing an Assembly....311
Driving a Constraint....313
Exercise 6-6: Driving a Constraint 314
Creating a Presentation File....317
Creating Presentation Views & Snapshots..318
Tweak Components 320
Capture Camera Viewpoint....322
Play the Animation 323
Create a New Storyboard 323
Publish a Video from a Storyboard 323
Snapshot View 324
Create a Drawing from a Snapshot View 325
Publish a Raster Image from a Snapshot View ..326
Exercise 6-7: Creating a Presentation Storyboard ..327
Creating Drawing Views from Assemblies & Presentations 332
Bill of Material (BOM) 332
Sorting Items in the BOM....333
Renumbering Items in the BOM 334
Adding Columns to the BOM....334
Changing the View Options of the BOM....334
Opening a Part from the BOM Editor....335
Exercise 6-8: Editing a Bill of Material (BOM)....335
Creating Balloons 338
Placing Individual Balloons....338
Auto Ballooning....340
Moving and Aligning Balloons 341
Editing a Balloon's Value....342
Parts List....343
Editing a Parts List 343
Editing Parts List BOM Data 344
Creating Custom Parts....345
Wrapping a Parts List 345
Exercise 6-9: Creating a Drawing from an Assembly 346
Applying Your Skills 355
Skills Exercise 6-1 355
Skills Exercise 6-2 357

7 Advanced Modeling Techniques 361

Introduction....361
Objectives....361
Dimension Display, Relationships, & Equations ..362
Dimension Display....362
A Dimension's Relationship....362
Equations....363
Parameters....363
Creating Parameters....364
Creating User Parameters....365
Creating Linked Parameters....366
Exercise 7-1: Relationships and Parameters 368
iParts....373
Creating an iPart....374
Editing iParts....378
Placing an iPart Member into an Assembly..378
Creating a Drawing for an iPart Factory 379
Exercise 7-2: Creating and Placing an iPart 381
iAssemblies....387
iAssembly Author Dialog Box Options....388
Editing iAssemblies....389
Placing an iAssembly into an Assembly 390
Creating a drawing for an iAssembly factory.. 390
Exercise 7-3: Creating & Placing an iAssembly.. 392
Sectioning a Part or Components in an Assembly .. 396
Design View Representations in a Part or an Assembly File....397
Emboss Text and Closed Profiles....398
Exercise 7-4: Creating Text & Emboss Features401
Sweep Features....405
The Sweep Dialog Box....405
Creating a Sweep Feature Using a Profile..408
Exercise 7-5: Creating Sweep Features....408
3D Sketching....411
3D Sketch Overview....411
3D Sketch Environment....411
3D Sketch from Intersecting Geometry 411
Project to Surface....412
Project to a 3D Sketch....413
3D Lines....414
Create a 3D Sweep....415
Import Points....415
Exercise 7-6: 3D Sketch & Sweep Features....417
Coil Features....421
Input Geometry....421
Behavior....422
Output....423
Loft Features....424
Create a Loft....424
Exercise 7-7: Creating a Loft Feature....430
Freeform Modeling....434
Split a Part or Face....436
Behavior....437
Exercise 7-8: Splitting a Part into Multiple Solid Bodies....437
Mirror Features....439
Suppressing Features....441
Reordering a Feature....441
Feature Rollback....442
Content Center....443
Introduction to Stress Analysis....444
Create a Simulation Study – Step 1....445
Assign Material – Step 2....446
Applying Constraints – Step 3....446
Applying a Load – Step 4....447
Mesh Options – Step 5....449
Run Simulation – Step 6....449
Review Simulation Results – Step 7....450
Display Results – Step 8....450
Animate or Probe Results....451
Report....452
Exercise 7-9: Run a Stress Analysis on a Part..452
Exercise 7-10: Run a Stress Analysis on an Assembly....455
The Frame Generator....459
Exercise 7-11: Creating a Frame....463
Applying Your Skills....470
Skill Exercise 7-1....470
Checking Your Skills....471

8 Introduction to Sheet Metal Design 473

Introduction....473
Objectives....473
Sheet Metal Design....474

Creating a Sheet Metal Part..... 474
Convert a Part File to a Sheet Metal Part....474
Sheet Metal Environment 474
Adding Features from the 3D Model Tab....475
Sheet Metal Parameters.....475
Sheet Metal Defaults, Rules and Styles 475
Sheet Metal Defaults.....475
Sheet Metal Rules and Styles 476
Sheet Metal Unfold Rule 480
Exercise 8-1: Editing a Sheet Metal Style & Rule.. 481
Face.....484
Unfold Options and Bend Tabs 485
Contour Flange.....485
Width Extents 486
Unfold Options and Bend Tabs 487
Flange.....488
Unfold Options and Bend Tabs 489
Exercise 8-2: Creating Sheet Metal Parts.....490
Hem 494
Shape Tab.....495
Unfold Options and Bend Tabs 495
Bend 495
Shape Tab.....497
Unfold Options and Bend Tabs 497
Edit a Bend 497
Cut 498
Fold.....499
Shape Tab.....500
Unfold Options and Bend Tabs 501
Corner Round.....501
Corner Chamfer 501
Exercise 8-3: Creating Bend, Cut, Hem & Fold Features 502
Flat Pattern 508
Define A-Side.....508
Create Flat Pattern 508
Flat Pattern Environment.....509
Flat Pattern Definition and Extents.....509
Export a Flat Pattern 510
Detailing Sheet Metal Parts.....510
Exercise 8-4: Flattening & Documenting Sheet Metal Parts 511
Applying Your Skills.....515
Skill Exercise 8-1.....515
Index.....517
