### The Complete Guide to

# Mold Making with SOLIDWORKS 2023

Basic through Advanced Techniques

Paul Tran CSWE, CSWI

## TAPILTOD 70 JJUAT

Chapter 1:	Plastic Part Design	1-1
	Remote Control	1-1
	Starting a new part document	1-1
	Creating the parent sketch	1-1
	Extruding the main body	1-2
	Making the upper curved cut	1-2
	Adding the fillets	1-3
	Shelling the part	1-4
	Making the recess sketch	1-5
	Making the recess cut	1-6
	Copying a sketch	1-7
	Creating the mounting bosses	1-8
	Adding the support ribs	1-9
	Adding the mounting holes	1-10
	Adding the rib fillets	1-11
	Assigning material	1-12
	Changing the part color	1-13
	Calculating the mass	1-14
	Creating the core and cavity molds	1-15
	Applying the scale factor	1-15
	Creating the parting lines	1-15
	Creating the shut-off surfaces	1-16
	Creating the parting surfaces	1-17
	Adding a reference plane	1-18
	Inserting a tooling split	1-19
	Separating the mold blocks	1-20
	Hiding the references	1-21
	Assigning material to the mold blocks	1-22
	Exercise - Plastic part design 2	1-23

Chapter 2:	Surface Repair	2-1
	Surface Repair – Mouse	2-1
	Opening a parasolid document	2-1
	Running Import Diagnostics	2-1
	Examining the small surfaces	2-2
	Deleting surfaces	2-3
	Deleting holes	2-3
	Patching the openings	2-4
	Adding draft	2-5
	Creating a split line feature	2-6
	Creating a face fillet	2-7
	Adding thickness	2-8
	Creating a recess cut	2-9
	Saving your work	2-10
	Exercise: Repair surfaces	2-11
Chapter 3:	<b>Core and Cavity Creation</b>	3-1
	Core and Cavity - Plastic Tray	3-1
	Opening a part document	3-1
	Applying the scale factor	3-1
	Creating the parting lines	3-2
	Creating a parting surface	3-3
	Making the mold block sketch	3-4
	Creating a tooling split feature	3-5
	Hiding the references	3-6
	Assigning materials	3-7
	Changing the transparency	3-7
	Separating the mold blocks	3-8
_	Exercise – Creating a Core and Cavity	3-11
	Plastic Knob	
	Opening a part document	3-11
	Applying the scale	3-11
	Creating the parting lines	3-12
	Creating the shut-off surfaces	3-13
	Creating the parting surfaces	3-14
	Adding a new plane	3-15
	Making the sketch of the mold block	3-15
	Inserting a tooling split feature	3-16
	Separating the mold blocks	3-17

Chapter 4:	Planar Parting Lines	4-1
	Planar Parting Lines – Drone's Canopy Opening a part document Scaling the part Creating the parting lines Creating the parting surfaces Making the mold block sketch Adding the move/copy command Separating the mold blocks Hiding the references Renaming the mold blocks Assigning the materials Switching to transparency Saving your work	4-1 4-1 4-2 4-3 4-4 4-5 4-6 4-7 4-8 4-9 4-9
	Exercise — Planar Parting Lines	4-11
	Opening a part document Scaling the part Creating the parting lines Creating the parting surfaces Adding a new plane Making the mold block sketch Inserting a tooling split Changing materials Saving your work	4-11 4-12 4-13 4-14 4-15 4-16 4-16
Chapter 5:	Interlock Surface	5-1
	Interlock Surface 1 – Stabilizer Opening a part document Applying the scale factor Creating the parting lines Creating the parting surfaces Making the mold block sketch Hiding the references Separating the mold blocks Changing the transparency	5-1 5-1 5-1 5-2 5-3 5-4 5-5 5-6 5-7
	Interlock Surface 2 – Plastic Cap Opening a part document	<b>5-9</b> 5-9

#### The Complete Guide to Mold Making with SOLIDWORKS 2023 I Table of Contents

	Applying the scale factor Creating the parting lines Adding the shut-off surfaces	5-9 5-10 5-11
	Creating the parting surface	5-11
	Adding a new plane	5-13
	Making the mold block sketch	5-13
	Creating a tooling split feature	5-14
	Separating the mold blocks	5-15
	Hiding the references	5-16
	Renaming the solid bodies	5-17
	Assigning materials	5-17
	Changing the transparency	5-18
	Exercise Interlock Surface 3 – Round Knob	5-19
	Opening a part document	5-19
	Applying the scale factor	5-19
	Creating the parting lines	5-20
	Creating the parting surfaces	5-21
	Adding a new plane	5-22
	Making the sketch of the mold block	5-22
	Inserting a tooling split feature	5-23
	Assigning materials	5-24
Chapter 6:	Non-Planar Parting Lines	6-1
	Non-Planar parting Lines — Fan Cover	6-1
	Opening a part document	6-1
	Applying the scale factor	6-1
	Creating the parting lines	6-2
	Creating the shut-off surfaces	6-3
	Creating the parting surfaces	6-4
	Adding a new plane	6-4
	Sketching the mold block profile	6-5
	Splitting the mold blocks	6-5
	Hiding the references	6-6
	Separating the mold blocks	6-7
	Changing the transparency	6-8
	Changing the materials	6-9

	Exercise – Non-Planar Parting Lines Meter Reader Upper Housing	6-11
	Opening a part document	6-11
	Applying scale	6-11
	Creating the parting lines	6-12
$\wedge$	Creating the parting surfaces	6-13
	Adding the ruled surfaces	6-14
	Closing off the left end	6-15
	Extending the lofted surface	6-15
	Trimming the left end	6-16
	Closing off the right end	6-17
	Extending the lofted and ruled surfaces	6-18
	Trimming the right end	6-19
	Knitting all surfaces	6-20
	Creating the shut off surfaces	6-21
	Adding a new plane	6-21
	Inserting a tooling split feature	6-22
	Adjusting the block thickness	6-22
	Adding an interlock surface	6-22
	Separating the mold blocks	6-23
	Changing materials	6-24
Chapter 7:	Manual Parting Lines	7-1
Chapter 7:	_	<b>7-1</b>
Chapter 7:	Manual Parting Lines - Heat Shield	
Chapter 7:	_	7-1
Chapter 7:	Manual Parting Lines - Heat Shield Opening a part document	<b>7-1</b> 7-1
Chapter 7:	Manual Parting Lines - Heat Shield Opening a part document Applying the scale factor	<b>7-1</b> 7-1 7-1
Chapter 7:	Manual Parting Lines - Heat Shield Opening a part document Applying the scale factor Creating the parting lines	<b>7-1</b> 7-1 7-1 7-2
Chapter 7:	Manual Parting Lines - Heat Shield Opening a part document Applying the scale factor Creating the parting lines Creating the shut-off surfaces	<b>7-1</b> 7-1 7-1 7-2 7-3
Chapter 7:	Manual Parting Lines - Heat Shield Opening a part document Applying the scale factor Creating the parting lines Creating the shut-off surfaces Creating the parting surfaces	<b>7-1</b> 7-1 7-1 7-2 7-3 7-4
Chapter 7:	Manual Parting Lines - Heat Shield Opening a part document Applying the scale factor Creating the parting lines Creating the shut-off surfaces Creating the parting surfaces Deleting the surfaces Creating the ruled surfaces Trimming with a sketch	7-1 7-1 7-1 7-2 7-3 7-4 7-5
Chapter 7:	Manual Parting Lines - Heat Shield Opening a part document Applying the scale factor Creating the parting lines Creating the shut-off surfaces Creating the parting surfaces Deleting the surfaces Creating the ruled surfaces Trimming with a sketch Making a 3D sketch	7-1 7-1 7-1 7-2 7-3 7-4 7-5 7-6 7-7
Chapter 7:	Manual Parting Lines - Heat Shield Opening a part document Applying the scale factor Creating the parting lines Creating the shut-off surfaces Creating the parting surfaces Deleting the surfaces Creating the ruled surfaces Trimming with a sketch Making a 3D sketch Creating the 1st corner patch	7-1 7-1 7-1 7-2 7-3 7-4 7-5 7-6 7-7 7-8 7-9
Chapter 7:	Manual Parting Lines - Heat Shield Opening a part document Applying the scale factor Creating the parting lines Creating the shut-off surfaces Creating the parting surfaces Deleting the surfaces Creating the ruled surfaces Trimming with a sketch Making a 3D sketch Creating the 1st corner patch Patching over corners	7-1 7-1 7-1 7-2 7-3 7-4 7-5 7-6 7-7 7-8 7-9 7-10
Chapter 7:	Manual Parting Lines - Heat Shield Opening a part document Applying the scale factor Creating the parting lines Creating the shut-off surfaces Creating the parting surfaces Deleting the surfaces Creating the ruled surfaces Trimming with a sketch Making a 3D sketch Creating the 1st corner patch Patching over corners Knitting the surfaces	7-1 7-1 7-1 7-2 7-3 7-4 7-5 7-6 7-7 7-8 7-9 7-10 7-11
Chapter 7:	Manual Parting Lines - Heat Shield Opening a part document Applying the scale factor Creating the parting lines Creating the shut-off surfaces Creating the parting surfaces Deleting the surfaces Creating the ruled surfaces Trimming with a sketch Making a 3D sketch Creating the 1st corner patch Patching over corners Knitting the surfaces Creating a reference plane	7-1 7-1 7-1 7-1 7-2 7-3 7-4 7-5 7-6 7-7 7-8 7-9 7-10 7-11 7-12
Chapter 7:	Manual Parting Lines - Heat Shield Opening a part document Applying the scale factor Creating the parting lines Creating the shut-off surfaces Creating the parting surfaces Deleting the surfaces Creating the ruled surfaces Trimming with a sketch Making a 3D sketch Creating the 1st corner patch Patching over corners Knitting the surfaces Creating a reference plane Creating a tooling split	7-1 7-1 7-1 7-2 7-3 7-4 7-5 7-6 7-7 7-8 7-9 7-10 7-11 7-12 7-13
Chapter 7:	Manual Parting Lines - Heat Shield Opening a part document Applying the scale factor Creating the parting lines Creating the shut-off surfaces Creating the parting surfaces Deleting the surfaces Creating the ruled surfaces Trimming with a sketch Making a 3D sketch Creating the 1st corner patch Patching over corners Knitting the surfaces Creating a reference plane Creating a tooling split Separating the mold blocks	7-1 7-1 7-1 7-1 7-2 7-3 7-4 7-5 7-6 7-7 7-8 7-9 7-10 7-11 7-12 7-13 7-14
Chapter 7:	Manual Parting Lines - Heat Shield Opening a part document Applying the scale factor Creating the parting lines Creating the shut-off surfaces Creating the parting surfaces Deleting the surfaces Creating the ruled surfaces Trimming with a sketch Making a 3D sketch Creating the 1st corner patch Patching over corners Knitting the surfaces Creating a reference plane Creating a tooling split	7-1 7-1 7-1 7-2 7-3 7-4 7-5 7-6 7-7 7-8 7-9 7-10 7-11 7-12 7-13

<b>Chapter 8:</b>	<b>Undercuts and Slide Cores</b>	8-1
	Stress Gauge Upper Housing	8-1
	Opening a part document	8-1
8000	Applying the scale factor	8-1
	Creating the parting lines	8-2
	Creating the shut-off surfaces	8-3
	Creating the parting surfaces	8-4
	Making the mold block sketch	8-5
	Analyzing the undercuts	8-6
	Sketching the slide core profile	8-7
	Extruding the slide core block	8-8
6	Separating the mold blocks	8-9
	Moving the slide core block	8-10
	Hiding the references	8-11
900	Changing the transparency	8-12
	Exercise: Multi-Cavity molds	8-13
Chapter 9:	Alternative Methods	9-1
	Using Combine Subtract – Rocker Arm	9-1
	Opening a part document	9-1
	Applying the scale factor	9-1
	Making the mold block sketch	9-2
	Extruding the mold block	9-2
	Creating a combine subtract feature	9-3
	Splitting a solid body	9-4
	Rotating a solid body	9-5
	Using Cut with Surface — Rocker Arm	9-6
	Opening a part document	0.6
0-0	Isolating the surface body	9-6
	Making the mold block sketch	9-7
Ö	Converting to planar surface	9-8
	Trimming the surfaces	9-9
	Knitting the surfaces	9-10
	Sketching the profile of the mold block	9-11
	Cutting with a surface	9-12
	Moving a solid body	9-13
8000	Using the Cavity Feature in Assembly	9-14
	Opening an assembly document	9-14

#### The Complete Guide to Mold Making with SOLIDWORKS 2023 I Table of Contents

Inserting a cavity feature Creating an exploded view  Chapter 10: Thickness Analysis  Thickness Analysis - Medication Upper Case Opening a part document Setting the parameters Analyzing the thickness Creating a section view Re-arranging the shell feature Scaling the part Creating a parting lines Creating a new plane Making the mold block sketch Extruding the mold blocks Hiding the references Separating the mold blocks Changing the transparency  Chapter 11: Using SOLIDWORKS Plastics  Plastics Analysis - Basin Opening a part document Enabling SOLIDWORKS Plastics  11- Creating a new study Specifying the injection location Creating a new study Specifying the injection location Creating a hell mesh Assigning material Running the flow analysis Viewing the report text file  Chapter 12: SOLIDWORKS Plastics Flow Analysis  Plastics - Flow Simulation Analysis Opening a part document  12- Plastics - Flow Simulation Analysis Opening a part document  12-		Inserting the engineered part	9-14
Inserting a cavity feature Creating an exploded view  Chapter 10: Thickness Analysis  Thickness Analysis – Medication Upper Case Opening a part document Setting the parameters Analyzing the thickness Creating a section view Re-arranging the shell feature Scaling the part Creating a parting lines Creating a parting surface Adding a new plane Making the mold block sketch Extruding the mold blocks Hiding the references Separating the mold blocks Changing the transparency  Chapter 11: Using SOLIDWORKS Plastics  Plastics Analysis – Basin Opening a part document Enabling SOLIDWORKS Plastics  11- Creating a new study Specifying the injection location Creating a new study Specifying the injection location Creating a shell mesh Assigning material Rumning the flow analysis Viewing the report text file  Chapter 12: SOLIDWORKS Plastics Flow Analysis  Plastics – Flow Simulation Analysis Opening a part document  12- Plastics – Flow Simulation Analysis Opening a part document  12-		Editing a component	9-15
Chapter 10: Thickness Analysis 10  Thickness Analysis - Medication Upper Case Opening a part document 10-Setting the parameters 10-Analyzing the thickness 10-Creating a section view 10-Re-arranging the shell feature 10-Scaling the part 10-Creating a parting surface 10-Adding a new plane 10-Extruding the mold block sketch 10-Extruding the mold blocks 10-Extruding the references 10-Extruding the mold blocks 10-Changing the transparency 10-Chapter 11: Using SOLIDWORKS Plastics 11-Enabling SOLIDWORKS Plastics 5-Enabling SOLIDWORKS 5-Enabling SOLIDW			9-15
Thickness Analysis – Medication Upper Case Opening a part document Setting the parameters Analyzing the thickness Creating a section view Re-arranging the shell feature Scaling the part Creating a parting surface Adding a new plane Making the mold block sketch Extruding the mold blocks Hiding the references Separating the mold blocks Changing the transparency  Chapter 11: Using SOLIDWORKS Plastics  Plastics Analysis – Basin Opening a part document Enabling SOLIDWORKS Plastics  11- Creating a shell mesh Assigning material Running the flow analysis Viewing the report text file  Chapter 12: SOLIDWORKS Plastics Flow Analysis  Plastics – Flow Simulation Analysis 12- Opening a part document 11- 12- 13- 14- 15- 16- 16- 16- 16- 16- 16- 16- 16- 16- 16		· ·	9-16
Thickness Analysis – Medication Upper Case Opening a part document Setting the parameters Analyzing the thickness Creating a section view Re-arranging the shell feature Scaling the part Creating a parting lines Creating a parting surface Adding a new plane Making the mold block sketch Extruding the mold blocks Hiding the references Separating the mold blocks Changing the transparency  Chapter 11: Using SOLIDWORKS Plastics  Plastics Analysis – Basin Opening a part document Enabling SOLIDWORKS Plastics 11- Creating a shell mesh Assigning material Running the flow analysis Viewing the results Viewing the report text file  Chapter 12: SOLIDWORKS Plastics Flow Analysis 12- Opening a part document 11- Chapter 12: SOLIDWORKS Plastics Flow Analysis 12- Opening a part document 11- 12- 13- 14- 15- 15- 16- 16- 16- 16- 16- 16- 16- 16- 16- 16			
Opening a part document Setting the parameters Analyzing the thickness Creating a section view Re-arranging the shell feature Scaling the part Creating the parting lines Creating a parting surface Adding a new plane Making the mold block sketch Extruding the mold blocks Hiding the references Separating the mold blocks Changing the transparency  Chapter 11: Using SOLIDWORKS Plastics  Plastics Analysis—Basin Opening a part document Enabling SOLIDWORKS Plastics  11- Enabling solipworks Plastics  Plastics Analysis—Basin Opening a part document Enabling solipworks Plastics  11- Enabling solipworks Plastics  11- Creating a new study Specifying the injection location Creating a shell mesh Assigning material Running the flow analysis Viewing the results Viewing the report text file  Chapter 12: SOLIDWORKS Plastics Flow Analysis  Plastics—Flow Simulation Analysis Opening a part document  12- Opening a part document	Chapter 10	: Thickness Analysis	10-1
Setting the parameters Analyzing the thickness Creating a section view Re-arranging the shell feature Scaling the part Creating the parting lines Creating a parting surface Adding a new plane Making the mold block sketch Extruding the mold blocks Hiding the references Separating the mold blocks Changing the transparency  Chapter 11: Using SOLIDWORKS Plastics  Plastics Analysis—Basin Opening a part document Enabling SOLIDWORKS Plastics  Plastics Analysis—Basin Opening a new study Specifying the injection location Creating a shell mesh Assigning material Running the flow analysis Viewing the results Viewing the report text file  Chapter 12: SOLIDWORKS Plastics Flow Analysis Plastics—Flow Simulation Analysis Opening a part document			10-1
Analyzing the thickness Creating a section view Re-arranging the shell feature Scaling the part Creating the parting lines Creating a parting surface Adding a new plane Making the mold block sketch Extruding the mold blocks Hiding the references Separating the mold blocks Changing the transparency  Chapter 11: Using SOLIDWORKS Plastics  Plastics Analysis—Basin Opening a part document Enabling SOLIDWORKS Plastics  11- Creating a new study Specifying the injection location Creating a shell mesh Assigning material Rumning the flow analysis Viewing the report text file  Chapter 12: SOLIDWORKS Plastics Flow Analysis Plastics—Flow Simulation Analysis Opening a part document 11- Chapter 5 SOLIDWORKS Plastics Flow Analysis 12- 12- 14- 15- 16- 17- 18- 18- 18- 18- 18- 18- 18- 18- 18- 18	<b>A</b>		10-1
Creating a section view Re-arranging the shell feature Scaling the part Creating the parting lines Creating a parting surface Adding a new plane Making the mold block sketch Extruding the mold blocks Hiding the references Separating the mold blocks Changing the transparency  Chapter 11: Using SOLIDWORKS Plastics  Plastics Analysis—Basin Opening a part document Enabling SOLIDWORKS Plastics  11- Enabling SOLIDWORKS Plastics  11- Creating a new study Specifying the injection location Creating a shell mesh Assigning material Running the flow analysis Viewing the report text file  Chapter 12: SOLIDWORKS Plastics Flow Analysis 12- Plastics—Flow Simulation Analysis Opening a part document 11- 12- 13- 14- 15- 16- 16- 16- 16- 16- 16- 16- 16- 16- 16			10-1
Re-arranging the shell feature Scaling the part Creating the parting lines Creating a parting surface Adding a new plane Making the mold block sketch Extruding the mold blocks Hiding the references Separating the mold blocks Changing the transparency  Chapter 11: Using SOLIDWORKS Plastics  Plastics Analysis—Basin Opening a part document Enabling SOLIDWORKS Plastics  11- Enabling SOLIDWORKS Plastics  11- Enabling solid mesh Assigning material Running the flow analysis Viewing the results Viewing the report text file  Chapter 12: SOLIDWORKS Plastics Flow Analysis Plastics — Flow Simulation Analysis Opening a part document  12- 13- 14- 15- 16- 17- 18- 18- 18- 18- 18- 18- 18- 18- 18- 18			10-2
Scaling the part Creating the parting lines Creating a parting surface Adding a new plane Making the mold block sketch Extruding the mold blocks Hiding the references Separating the mold blocks Changing the transparency  Chapter 11: Using SOLIDWORKS Plastics  Plastics Analysis—Basin Opening a part document Enabling SOLIDWORKS Plastics  Creating a new study Specifying the injection location Creating a shell mesh Assigning material Running the flow analysis Viewing the report text file  Chapter 12: SOLIDWORKS Plastics Flow Analysis Opening a part document  Plastics—Flow Simulation Analysis Opening a part document		· · · · · · · · · · · · · · · · · · ·	10-3
